

IEO Financial Literacy Game Technical Instruction

Introduction

The IEO Financial Literacy Game is an online simulation game in managing personal financial flows. To learn more about it, turn to the following documents:

[Description of the FLG](#)

[Onboarding Instruction for the FLG](#)

[Financial Literacy Game Webpage](#)

Technical Requirements

Please make sure that you follow these minimum technical requirements:

Type of device: laptop/computer

Browser: Google Chrome (latest version)

Internet cookies must be enabled.

JavaScript must be enabled.

Before your exam, make sure you have a **steady** internet connection.

Also, ensure:

- You have logged out from your previous sessions on finance.ecolymp.org;
- The battery of your device is fully charged / it is on the charger;
- You have switched off all notifications and closed all irrelevant tabs.

Playing the Game

The National Organiser will provide a link and login and password for your competitive session. Use the link or these data to log in on finance.ecolymp.org. If the game is logged into a different account use this link to logout: [Logout from the FLG IEO](#)

Choose “Competitive sessions”, select a character, and start the game.

During the exam, make sure you **do not change your focus** to other applications or browser tabs. You are not allowed to use extra devices or be assisted by third persons.

If anything goes wrong, the game is too slow in responding – **do not hesitate to refresh the page**: all the data is constantly recorded on the server, nothing will be missing.

The game is finished when you have completed 30 steps or the timer runs out.
